Title	Research Methods on Corruption and Corruption Control Analysis (CORAN)
Coordinators	Luís de Sousa (ICS-ULisboa) Nils C. Köbis (University of Amsterdam) Oksana Huss (University of Duisburg-Essen)
Venue	Institute of Social Sciences, University of Lisbon (ICS-UL), Portugal
Date	25 – 29 September
Schedule	09:30 – 13:00 and 14:00 – 18:30
Language	English
ECTS	5 ECTS
Requirements	Working knowledge of English (written and spoken) Degree in social sciences, economics and management studies, law, humanities or related subjects Basic computer skills
Objectives	Make students aware of the diversity of methodological options available to approach the study of corruption, their specificities and limitations and to understand the logic and suitability of different methods of enquiry. By advancing students' knowledge on these different methodological approaches and techniques we seek to help them obtain a more nuanced understanding of how such a complex normative issue, with social, economic, cultural, institutional and political implications can be studied.
Targets	Master, doctoral and postdoctoral students, law enforcement officials, journalists and NGO activists working in the field of anti-corruption.
Day 1, Monday, 25/9	
Morning Session (Sala Polivalente)	
9:30 Registration	
10:00 Welcome address	José Luís Cardoso, Director of ICS-UL
10:30 –12:30 Opening roundtable
